(Cert.-S.I.E.J.B. and Meat and other Foods of R.S.I.)

BRYNCOED

RHAYADER

26th January, 1956

*The Chairman and Members of the
Rural District Council of Rhayader*

Sirs,

I have the honour to present to you my Annual Report on the state of the Public Health in the Rhayader Rural District in the year 1955.

Throughout the year the weather was excellent and seasonable, which had a noticeably beneficial effect on general health and wellbeing, and on the prosperity of agriculture, our chief industry.

It is satisfactory to report that the contract was made this year for the installation of the complete new Sewage Disposal Scheme for Rhayader, and to note that during the process of putting in the new plant considerable improvements are to be made in our water conduits.

The completion of the scheme will have the effect of relieving the ever present anxiety about pollution of the river and possible infection of our water mains, which lie necessarily in fairly close proximity to the sewers.

The exceptionally dry conditions of the summer once again increased problems of water supply in many parts of the district. A few properties relying on private sources were for sometime without a supply. It is feared that in periods of drought this trouble may arise perpetually, and there is little prospect that it can be in all instances overcome. In Rhayader itself the supply was maintained without interruption, by the use of supplementary means, which unfortunately are only operable at considerable expense.

The housing problem was not acute. Several schemes were in course of preparation during the year. One contract for sixteen units of accommodation was let at the end of the year, but work had not commenced by the end of the period under review.

Slum clearance proposals submitted to the Ministry for work to be carried out during the next five years, indicating the intention to demolish twenty-two slum properties, were approved, nothing was done however, during 1955, but the Ministry were informed that the first years programme was the preparation of a clearance scheme in respect of a group of seven houses at Newbridge-on-Wye.

I remain, Sirs,

Your obedient Servant,

J. D. O.'M. POOLE, M.B., Ch.B.,

Medical Officer of Health.

STATISTICS OF THE AREA

Area of District	91,240 acres
Estimated Population	4,310
Number of Inhabited Houses...	1,290
Rateable Value	£116,067
Product of Penny Rate	£480

The town of Rhayader is an ancient market town, standing about 700 ft. above sea level in the Cambrian Mountains. The 1,500 acres of lakes in the Elan and Claerwen Valleys and the wild beauty of the upper Wye Valley are proving an increasing attraction and the town is visited by thousands of visitors annually.

Agriculture is the principal industry and its importance is indicated by the fact that about 58,000 acres are devoted to it, the farm population being about 40% of the total.

HEALTH SERVICES FOR THE AREA

The District is served by one part-time Medical Officer, a Surveyor and one Sanitary Inspector. A Rodent Operative is shared with Knighton Rural District Council.

Six nurses provide a home nursing service.

The Public Health Laboratory Service, Aberystwyth, carry out analyses of milk, water and histological examination of diseased animals slaughtered at the local abattoir. I am grateful to Dr. Sudds and her staff for their ready assistance.

Chemical analyses and examination of milk for fat content are done by the County Analyst, Carmarthen.

Post-natal, mothers and childrens welfare clinics are held monthly.

Clinics are available at Llandrindod Wells for Tuberculosis and at Hereford for Venereal Disease. The Chest Physician holds a weekly clinic at Llandrindod Wells.

There are no hospitals in the district but hospital services are provided at Knighton, Llandrindod Wells, Shrewsbury, Gobowen, Birmingham, Llanidloes and Aberystwyth. The facilities include the services of specialists in all branches of Medicine and Surgery.

(iii) Generalised and totally condemned	...	—	—	—	—	—	—

Total weight of meat condemned 498 lbs.

Condemned meat is coloured and sold to the local hunt for feeding hounds.

Milk

No action.

Ice Cream

No action.

Other Foods

Six visits made to other food shops. Catering establishments—seven visits.

GENERAL

Rufuse Collection

Collection is made as follows :—Rhayader, Cwmdauddwr and Elan Valley—twice weekly.

Newbridge-on-Wye, Doldowlod, Llanyre, Crossgates, Penybont and Nantmel—weekly.

St. Harmon, Pantydwr, Nantgwyn, Bwlchysarnau, Abbey-cwmhir and Llangurig Road—fortnightly.

Refuse is now tipped at The Bog, Newbridge-on-Wye and Gravel Road, Nantmel.

Public Cemetery

Four interments took place during the year. Work was almost completed on the new entrance buildings which comprise a mortuary and rest room. Separate public conveniences are also provided. The mortuary has been designed in such a way as to have all necessary conveniences for the performance of autopsies.

Public Conveniences

Work was started on the contract to convert the existing sanitary conveniences in Rhayader to eight W.C.s. for women and to build new conveniences for men on a site in the Smithfield.

Sewerage

The modern plants at Newbridge-on-Wye and Crossgates functioned satisfactorily during the year.

A tender for the Woodlands scheme was accepted and submitted to the Ministry.

Public Water Supplies

The work of laying a main approximately three miles long from the Birmingham aqueduct to supplement the supply at Llanyre was completed.

Repairs done to a large leak in the Rhayader system resulted in a considerable decrease in the consumption per head, 45 gallons was the figure for this year. All samples taken in Rhayader were satisfactory. The latest samples taken from other supplies have all been good.
